

"Lodestar engineering, production and quality controls were excellent. They produced Trailer frame parts for us and the quality of their production was years ahead of our current supplier base and was very cost efficient. I was very happy with their performance."
 – Director, mid-sized Trailer manufacturing company

We have partnership with over 60+ manufacturers both within US and offshore to provide a diverse range of manufacturing services from Casting, Forging and Machining to Heavy and Light Fabrications and various Forming operations.
